What do you like most about this course and/or the instructor's teaching of it?

Diego is very committed, clearly prepares a lot for our labs.

What about this course and/or the instructor's teaching of it needs change or improvement?

What suggestions can you offer that would have made this course a better learning experience for you?

We didn't get much individual feedback on our assignments or exams - not that the grade is the most important thing, but I would have liked to know how I was doing

Any additional comments?
